Letter no. 63 dated 4th July 1935 from the Dir. S.D.F. regarding sanction to the free supply of ammunition books to the B water men of the S.D.F. & rec. this. & M. Stores).

The Dir states that supply of books to the watchmen of the S.D.F. is necessary as they have to patrol during nights when they are likely to be bitten by cobras which will be wandering in the Compound. This reason applies with equal force in the case of water men attached to other offices also and supply of books on this ground cannot perhaps be denied. The watchmen of the S.D.F. are not required to carry out or patrol long distances as in the case of the Police and Military Staff. Submitted for orders.

18.11.11.35. 2. Note and attachment & [illegible] Stokes. The D^r recommends the supply of 16 pairs of ammunition books to the above. This may perhaps be sanctioned. (But it is not clear if the supply on the same scale has to be made annually)

5 The proposal is to supply 16 pairs of ammunition boots to the Watchman, Firemen etc., of the Sandal Oil Factory (one pair to each) pending the final orders of Government on the supply of clothing etc., to the menials in the commercial concerns. The total approximate cost involved has not been noted. This has to be ascertained. It is ~~as certained~~ also not clear whether the supply of boots is proposed to be made for the first time or whether such supply had been made in the past. In the former case, the proposal requires detailed examination and has to be sanctioned only after the general question is decided. In the latter case, when the last supply was made and particulars of last supply (No. of persons to whom supply was made, cost etc.) have to be ascertained.

6 In the present financial condition, it is desirable to avoid sanctioning new items of expenditure (particularly those of recurring nature) as far as possible.

S i r,

With reference to your letter No.G.37/G.M. 66-34-45 dated 3rd July, 1935, I have the honour to state that the ammunition boots are absolutely necessary for the watchmen of the Factory as they have to patrol during nights when they are likely to be bitten by cobras which will be wandering in the compound. I request therefore that early sanction of Government may kindly be obtained for the free supply of these to the 8 watchmen of the factory.

In regard to the proposal of fixing a scale of light clothing to the menials in the commercial concerns, the matter is being dealt with by the Department of Industries & Commerce, and definite proposals will be submitted to Government shortly.

With reference to your letter No.D.5659/S.O.F. 53-55-5 dated 16th March 1936, I have the honour to state that consolidated proposals regarding supply of clothing to menials belonging to the Industrial Concerns are under issue from the office of the Director of Industries & Commerce.

G.M. 66-34-5 F In my letter No.2544 dated 2-1-1935, I had requested approval of Government for the supply of uniforms to the 8 watchmen of our Factory at Mysore who are borne on Muster-Roll. Since Sandal Oil Factory is an important Industrial concern, which is often visited by several distinguished visitors, it is very necessary that the watchmen should be provided with uniforms. The free supply has been in vogue from the beginning of the Factory and I request you kindly to obtain approval of Government to continue free supply.

I may add in this connection that during my visits to Mysore I have been receiving petitions repeatedly from these watchmen for the supply of clothing and I request the favour of your obtaining very early orders of Government in the matter.
